

05.04.12 PREMIERE, RUNWAY TO RED CARPET

Brooklyn Decker In femme d'armes – 'Battleship' Seoul Premiere

It looks like Brooklyn Decker was saving all the skin-baring for the premiere for 'Battleship' in South Korea this evening.

She was joined by co-star Taylor Kitsch at the Coex Megabox, wearing a sexy navy lace **femme d'armes** Spring 2012 gown.

The sailors behind her look mighty pleased.

Maybe it was because of the thigh-high split, the revealing nature of her dress, her captivating beauty or all of the above.

As much as I love her shoe collection, these criss-cross pumps are giving me eye ache **again**.

Sexy strappy sandals would've been preferred...been saying that a lot lately.

Brooklyn completed her look with flawless makeup that included kohl-rimmed eyes and a wavy updo.
